ENGAGED FOR SEVERAL SEASONS IN THE FUTURE

HAROLD RYLAND, Manager Unity Club Course, Cincinnati, O., March 22, 1905.

"One of the largest audiences of this year's course gathered in the Grand Opera House to hear Dr. Krebs. They were held by the lecture and subsequent questions for two hours and a half and even at that time were anxious for more. It seemed to be the universal wish of our people that he return again next year, and we shall hope to engage him for several of our seasons in the future."

WANTED AGAIN.

JOHN A. NALLY, Esq., Chr. Catholic Club Course, Cleveland, O., March 28, 1905.

"Held everyone in absorbed interest for two hours. He proved so interesting that after the lecture the greater part of the audience accepted his invitation to question him, and kept him busy for one hour longer. Everyone was pleased and voiced the sentiment that he would return again, and soon."

His lectures are, beyond comparison, the most suggestive and luminous interpretations of man and the literary movement to which I have listened in recent years.—*Dr. Frank W. Gunsaulus, Chicago.*

I have no hesitation whatever in saying that, as secretary of the University Extension Society of Maine, I regard our securing your services for three lectures as the best thing done during the season of 1904-5. Your lectures combined, in a way that was nothing short of an amazement to me, scholarship, breadth of culture, originality and popularity. I regard your lectures as being distinctly the "literary treat" of the season.—*C. W. A. Veditz, now professor in George Washington University.*

Mr. Cooke is one of the most eloquent of the Boston lecturers. His lectures are deeply thoughtful, eloquently earnest, and models of form and style.—*Hezekiah Butterworth.*

The Transcript, Boston, Mass.—Mrs. Maude Gordon Roby proved a strong attraction at the N. E. Her personality an evident reverence for music in its highest form, her musical illustrations and magnetism, held the closet attention and elicited frequent applause.

PRESS NOTICES.

Dr. Cook has been an officer of six polar expeditions. He has been awarded medals of honor by several scientific societies. His Antarctic book has been translated into French and German, and he was recently knighted by King Leopold; such honors fall to few men and as a lecturer he could not be otherwise than interesting.

A large audience at the American Geographical Society listened last night to the incidents of Dr. Cook's latest venture, "To Mount McKinley." It was a story not of narrow escapes but of great hardship splendidly illustrated by magnificent slides.—*New York Herald*.

Dr. Cook's lecture proved as fascinating in many ways as Nansen's narrative of his adventures in the far north.—*Boston Herald*.
